

KATS KAMP. APRIL 21-23, 2017

The Kansas Association of Teachers of Science will team with the Rock Springs 4-H Center for our annual science education conference. This year will be the 50th anniversary of providing an opportunity for science educators at all levels to join in a spring conference to network, learn new techniques, and improve science education to the students of Kansas! We attract the most dedicated and enthusiastic science teachers from K-16 from our state.

I would like to invite you and your organization to participate as an exhibitor at the conference. The Rock Springs 4-H Center provides some unique resources for science activities and networking. Listed below are some of the opportunities for your organization to team up with these dedicated professionals.

- 1- You can be an exhibitor at the conference. Exhibitors can set up their promotional materials or products in a central location for maximum exposure for attendees. The exhibits are located in Heritage Hall, which is the building where most sessions take place. Vendors can set up on the evening of Friday the 21st or Saturday morning, (April 22nd). The main activity at the exhibit area will be Saturday from 9am-5 and Sunday from 8am-2. To help get the best exposure for your materials you might:
 - Describe your materials being exhibited so we can include this information in the program
 - Schedule a demonstration for one of your products during the exhibit times
 - Provide a gift certificate for a door prize that must be claimed at your booth
 - Provide an Exhibitor Workshop - see below for details.
- 2- You may choose to present as part of our schedule. You can do a workshop with hands-on activities, demonstrations, or other activities of your choice. If you would like to be a presenter, you will complete a registration form found on our website, www.kats.org or you may mail it in, if you prefer.
- 3- Teachers are always looking for new resources and materials for use in their classroom. We encourage you to donate gift items for drawings that will be held at the conference. If you cannot attend the conference but would be willing to contribute gifts or prizes, we will be happy to display your promotional materials.

I look forward to your participation in the event. If you have any questions that I can answer, please contact me.
